Dzung Dao

Griffith University, Professor

Dr Dzung Dao is a Professor in Mechanical and Mechatronic Engineering at Griffith University. He served as Head of Mechanical Engineering Department, Griffith University from 2017 to 2023, and Chair of National Committee on Mechatronics, Engineers Australia from 2019 to 2021.

Professor Dao has over 20 years of high-impact research experience in semiconductor physics, micro and nanotechnology, sensors and actuators, and has established himself as a leading researcher in this field. He has published over 400 papers, 8 books/book chapters, and patents. He has secured research grants exceeding AU\$11.5M from prestigious funding bodies, such as Australian Research Council (ARC), Innovative Manufacturing Corporate Research Centre (IMCRC), Department of Foreign Affairs and Trade (DFAT), among others. Professor Dao has supervised to completion of 25 PhD students. His research contributions extend beyond academia, as he has collaborated with numerous companies in Australia, Japan and USA to advance sensor technology.
