Kai Tao

Northwestern Polytechnical University, Professor

西北工業大學

NORTHWESTERN POLYTECHNICAL UNIVERSITY

Kai Tao received his B. Eng. and M. Eng. in Microelectronics from Central South University in 2009 and Shanghai Jiao Tong University in 2012, respectively, and his Ph.D. degree from Nanyang Technological University in 2016. He worked as a postdoctoral research associate/fellow with the Singapore-MIT Alliance for Research and Technology project from December 2015 to February 2017. He is currently working as a professor with the Department of Mechanical Engineering at the Northwestern Polytechnical University. His research interests include NEMS/MEMS fabrication, micro energy harvesting, and self-powered MEMS devices. He has authored and co-authored 4 book/book chapters and more than 100 technical papers with over 5000 citations. He serves as a reviewer for more than 50 SCI journals and general/session chair for IEEE INEC, IEEE/ASME AIM, and VEH2021 international conferences.
