

Delegation - China

Jun Tang

North University of China, Professor

中北大学
NORTH UNIVERSITY OF CHINA

Jun Tang received the B.S. and M.S. degrees in communication engineering from the North University of China, Taiyuan, China, in 2003 and 2006, respectively, and the Ph.D. degree in physics from the National Technical University of Athens, Athens, Greece, in 2010. He has presided over more than 20 projects of various ministries and commissions such as JKW Basic Strengthening Program, National Natural Science Foundation of China Excellent Youth/Instrument Special Project/General Project, Equipment Development Department Pre Research Project, and Ministry of Science and Technology Major R&D Program Project. He has published more than 110 papers in top journals such as *Advanced Materials*, *Advanced Functional Materials*, *IEEE Transactions on Microwave Theory and Techniques*. His research interests include microelectromechanical sensor, quantum sensing, and precision measurement instrument.
